OBJECTIVE

Backend developer with .NET Core experience, seeking an internship. I've built backend services, RESTful APIs, and database integrations, and I want to take on harder technical challenges. I'm looking to learn from experienced engineers and keep growing as a developer.

EDUCATION

Bachelor of Software Engineering

Oct 2022 – Oct 2026 (Expected)

FPT University Da Nang

GPA: 7.8/10

CERTIFICATIONS:

- Microsoft Back-End Developer Professional Certificate — Microsoft | Aug 2026
-

EXPERIENCE

FPT Software Da Nang

September 2025 – December 2025

Fullstack .NET Intern

- Migrated a legacy C# application to a decoupled architecture using ASP.NET Core Web API and Vite.
- Analyzed existing C# source code and database logic to identify and resolve defects during the migration process.
- Debugged and fixed database issues involving SQL triggers and stored procedures.
- Prepared technical reports documenting implemented changes, identified issues, and development progress.

VivuCar – Car Rental Platform

May 2026 – July 2026

Team Leader | ASP.NET Core 8, EF Core, SQL Server

- Built an admin dashboard for vehicles, users, vouchers, and user-submitted reports.
 - Added an admin reporting dashboard with Excel and PDF export.
 - Built a voucher and promotion system with usage tracking.
 - Integrated Hive AI to moderate user reviews automatically.
 - Implemented driver's license verification through the Ministry of Public Security's official portal.
