LANGUAGE

- English (ToeicLR 650)
- Japanese (Basic)

SOFT SKILL

- Team collaboration
- Critical thinking
- Task delegation
- Time management

CERTIFICATION

- Fundamentals of AI Agents Using RAG and LangChain (Coursera-2026)
- Project: Generative AI Applications with RAG and LangChain (Coursera-2026)
- Project Management Principles and Practices Specialization(Coursera-2026)

EXPERIENCE

Backend .NET Intern

FPT Software Da Nang

September 2025 - December 2025

- **Migrated legacy C# application** into a modern decoupled architecture using **ASP.NET Core Web API** and **Vite**.
- **Adapted to real-world development workflows**, participating in production project operations and team collaboration.
- **Applied clean architecture & code optimization** techniques to structure readable, maintainable, and scalable backend code.

BrandHub - AI-Driven Brand Intelligence Platform

Role: AI Team Lead

Jun 2026 - Present (Ongoing)

- Led a team of AI engineers in architecting and developing AI microservices for automated brand intelligence, trend analysis, and content generation using FastAPI and Python.
- Designed RAG (Retrieval-Augmented Generation) pipelines and integrated LLM workflows with built-in hallucination evaluation and entity resolution services.
- Engineered web crawling & data ingestion pipelines to collect, normalize, and ingest market data into the central system.

UniNest - Student Roommate & Housing Finder

Role: Team Lead / Full-stack Developer

Feb 2026 - May 2026

- Led team building a platform to help students find compatible roommates and rental housing.
- Architected RESTful APIs using ASP.NET Core for authentication, listings, and profile matching.

EDUCATION

FPT UNIVERSITY

Software engineering

2022 - 2026

GPA 3.5/4

Featured Subjects:

- Object-Oriented Programming
- Data Structures and Algorithms
- Basic Cross-Platform Application Programming With .NET
