PRIZE

Hackathon Computer Vision 2026

Winner | 06/08/2026

FPT Education

InnocodeCamp

Final Round | 08/07/2025

FPT Education

Research Festival (ResFes 2024)

Final Round | 20/6/2024

FPT Education

CERTIFICATE

IELTS 6.0

4/2026

by VietNam IDP Education

FPTU Student exchange

12/2023

by Technology Kuala Lumpur, Malaysia

INTRODUCTION

Highly motivated Computer Science student with a strong foundation in web development. Proficient in **Java Spring Boot**, **.NET**, **JavaScript**, **React**, **NodeJS**, **Python FastAPI** and passionate about creating clean, scalable applications and eager to leverage AI technologies to build smarter solutions in a collaborative environment.

EDUCATION AND EXPERIENCE

Freelance Full-Stack Developer

<https://biensovip.com> | 05/2026 - Now

- Independently designed and built a full-stack marketplace platform solo – **.NET 8 / ASP.NET Core** (Clean Architecture, 61 entities, EF Core + PostgreSQL), **React 19**, JWT dual auth, and deployment.
- Made and justified key architecture decisions: PostgreSQL over MongoDB for relational multi-filter queries, and excluded a payment gateway (manual confirmation flow instead) to cut PCI-DSS risk.
- Owned full delivery as freelancer – client requirements gathering, technical proposal, 30-day MVP roadmap, third-party integrations (Cloudinary, AWS SES, DeepSeek AI chatbot) and deploy on VPS.

FPT Software Internship

Fsoft | 08/2025 - 12/2025

- Developed enterprise applications using OutSystems Reactive Web within an Agile team.
- Debugged and refactored code to optimize system performance and user experience.

University

FPT University | 09/2023 - Present

GPA: 3.3/4.0 - 8.2/10.0

High school

Phan Chau Trinh | 09/2020 - 06/2023

GPA: 9.0/10.0

ACTIVITIES

The Dreamers Innocode Camp

Team Leader

06/2025 - 08/2025

Led a cross-functional team of 5 developers in a university-wide coding competition, using React, Java Spring Boot, My SQL, Docker

Dreamer ResFres

Team Leader

20/03/2024 - 11/5/2024

Develop research, reading, and report writing skills, as well as scientific research capabilities

The Dreamers

Founder

15/06/2024 - Now

Founder of a community-driven charity organization including 30 members dedicated to fostering positive social impact.

Other Activities

Member

- Referee, FPTU AI & Robotics 2025 Competition
- Student Ambassador of Danang
- Economic Project: "Working Space"
- MC for 50+ event

Hobby

- Running
- Team sport
- Master of Ceremonies
- Networking

PROFESSIONAL SKILL

Java Core && Spring Boot

C# .NET

JavaScript Es5 & NodeJS

Python (FastAPI)

Communication Skills

Git/GitHub/GitLab/Notion/Jira

PROJECT

The MC HUB

01/2026 - 7/2026

Tech Lead & CEO

- Launched voice training platform (React 19 + **Java Spring Boot 3.3**) monetized from day one: 87 MCs onboarded in first month, **20 transactions with ~4M VND** revenue across 2 subscription tiers (Basic/Full).
- Built **AI voice analysis microservice** (Python FastAPI + Whisper) evaluating pronunciation, intonation, pace, pauses – powering 101 practice exercises, 40 theory readings, and 4 structured courses across 6 MC categories
- **Led team of 6 from zero to production in 6 months.** CI/CD on Vercel (frontend) + Render (backend), using Notion and Jira to manage workflow
- **Technology:** MongoDB, Python FastAPI + Whisper, Java SpringBoot, ReactJS, Redis,

Deploy: <https://mc-voice-training.vercel.app/>

Repo: <https://github.com/The-MC-Hub>

ThreadLearn: AI Race-Condition Detector & Fix Suggestion Engine

06/2026 - 07/2026

AI Engineer – RAG Pipeline, FastAPI Server, Static Analysis

- Fine-tuned a **1.5B-parameter LLM** (Qwen2.5-Coder + **QLoRA**) that outperforms **GPT-3.5-turbo** at fixing JavaScript concurrency bugs – **73.3%** vs 65.0% on 30 real production bugs, despite a ~125× smaller model.
- Built a **RAG pipeline** (BM25 + AST retrieval, 2,050-doc knowledge base) paired with a custom static race-condition detector to ground the model's fixes and cut hallucination.
- Shipped a production **FastAPI microservice** (JWT, Redis, MongoDB) serving real-time fix suggestions.
- Co-authored a research paper – **submitted at ICTA 2026**
- **Technology:** MongoDB, Python FastAPI + Whisper, Java SpringBoot, ReactJS, Redis
